

SERHII GORIN

Junior Network Engineer | Junior System Administrator

Rzeszów, Poland | gorinserhii@gmail.com | [linkedin.com/in/gorinserhii](https://www.linkedin.com/in/gorinserhii) | github.com/gorinserhii-spec

PROFESSIONAL SUMMARY

Junior Network Engineer with hands-on experience in Cisco networking, high availability design, and Linux system administration. Built secure, fault-tolerant lab environments with BGP, HSRP, VPN, and web security solutions. Strong troubleshooting mindset and automation skills using Bash.

EXPERIENCE

- IT Support Intern — EU Company, Poland | May 2025
 - Delivered L1 support for hardware, OS, and network-related issues
 - Diagnosed and maintained switches, routers, and office network infrastructure
 - Assisted in structured cabling and routine network maintenance
 - Performance rating: Very Good (5/6)
 - Engineering Lab Projects | 2023 – Present
 - Designed HA Cisco topology (Dual ISP with BGP, HSRP, Site-to-Site VPN) achieving <1s failover
 - Deployed Secure Web Gateway (Nginx Reverse Proxy + ModSecurity WAF) mitigating SQLi/XSS
 - Automated log monitoring via Bash with real-time Telegram alerts
 - Simulated enterprise scenarios using EVE-NG, VMware, VirtualBox
-
